

Please contact us,
if you need longer connectors than
200 mm (standard dimension)!

The outer radius of the
made-to-measure connectors is not
identical with the normal stair nosing
profiles!

"Round" 90° corners with and without connectors for stair edges, landings or walls

Ready-made corners with "rounded" edges made of aluminium for save solution

- time-saving, as no laborious miter cuts have to be made on site
- can be safely used without shoes
- for resilient floor coverings up to 3,0 mm
- Standard leg lengths of 300, 1000 and 1500 mm, further dimensions on request
- Deviating dimensions, other degrees or colours are possible on request

871 STAIR NOSING

COLOUR
F4

LENGTH
2,50 - 5,00 m

Version EC ROUNDED EDGE

COLOUR
F4

LENGTH
0,3 x 0,3 x 0,2 m

Version EC-L ROUNDED LEFT EDGE

COLOUR
F4

LENGTH
0,3 x 1,0 - 0,3 x 1,5 m

Version EC-R ROUNDED RIGHT EDGE

COLOUR
F4

LENGTH
1,0 x 0,3 x 0,2 - 1,5 x 0,3 x 0,2 m

S = predetermined bending point

Version EV ROUNDED EDGE

COLOUR
F4

LENGTH
0,3 x 0,3 x 0,2 m

Version EV-L ROUNDED LEFT EDGE

COLOUR
F4

LENGTH
0,3 x 1,0 x 0,2 - 0,3 x 1,5 x 0,2 m

Version EV-R ROUNDED RIGHT EDGE

COLOUR
F4

LENGTH
1,0 x 0,3 x 0,2 - 1,5 x 0,3 x 0,2 m

Made-to-measure round corners (EC)

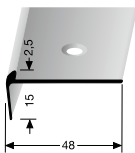

- Our "round" 90° corners can be made to the desired size
- The outer radius on the curved profile is approx. 10 mm (R10)
- L-, U- or C-shape are possible
- The maximum unwinding of an element is 5,000 mm (one-piece)
- Angle positions deviating from 90 are also possible
- In our factory we can produce round corners with angles of 45° - 150°
- The angles of the fastening legs on the connector are bent to the required dimension

Made to measure round corners with connector (EV)

- For the installation of pedestals or for the of pre-wall elements such as WC, washbasin or drywall, washbasin or drywall elements, longer connectors can be produced on request
- The round corners with connectors can also be used for wall projections, window sills or roller shutter window sills or roller shutter boxes
- The outer radius of the connector is reduced to the same the outer radius of the connector to the same as the curved element (R10)
- The connectors cannot be used with the normal with the normal stair nosing profiles of the same type because then the radii do not match
- When ordering the round corners with connectors, please indicate the required length of the connector if it is to be >200 mm

READY-MADE CORNERS FOR 859, 860 + 862

859 STAIR NOSING

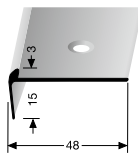

COLOUR
F4

LENGTH
2,50 - 5,00 m
